AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

Nat Feinn & Son facility was a repacking facility with 11 workers at the time of inspection (20 in peak season). The operation works all year round (different commodities). The products were being received packed. The process included steps such as receiving, product storage, dump wash or dump repack (dry), pre-grade, washer (single pass spray bars with PAA 5-80 ppm), air dryer, sort, pack, label, palletize, product storage, and shipping. Tomatoes were the only one washed. Other commodities were handled dry. At the time of the audit, tomatoes were being repacked. Other commodities observed were stored in the cold rooms. Conventional products. No allergen risks at the time of inspection.

Addendum(s) included in the audit:

Not Applicable

Product information for each product

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Tomatoes	Observed on the day of audit	Year round	Canada, United States
Bell Peppers	Not observed but of a similar risk type to what was observed*	Year round	United States, Canada
Squash	Not observed but of a similar risk type to what was observed*	Year round	Canada, United States

CERTIFICATE VALID FROM:

Aug 03, 2022 To Aug 02, 2023
